Career Objective

Motivated AI & Computer Software Application graduate from NSTI Bengaluru with hands-on expertise in Python, Machine Learning, Deep Learning, NLP, Generative AI, and Power BI. Passionate about simplifying complex AI concepts and empowering learners through project-based, interactive training. Seeking a **Technical Youth Trainer** role where I can deliver impactful AI workshops, mentor beginners, and develop cutting-edge course content aligned with industry needs.

Education

Computer Software Application — <i>National Skill Training Institute (NSTI), Bengaluru</i>	2024–2025
Score: 83%	
Bachelor's Computer Application <i>Government College, Ateli, Haryana</i>	2022–2024
Score: 82%	
Computer Operator and Programming Assistant <i>Government ITI, Kund Manethi</i>	2021–2022
Score: 83%	

Internship & Training

AI Programming Assistant (DGT, Microsoft & Edunet Foundation) — *NSTI G Bangalore* Sep 2025–Present

- Delivered and participated in hands-on AI training covering Python, SQL, Machine Learning, Deep Learning, NLP, and Computer Vision.
- Built end-to-end AI solutions using Generative AI, GitHub collaboration, and Streamlit deployment—directly aligned with ChatGPT/GenAI training delivery.
- Developed practical data analysis and visualisation skills using Python and BI tools to derive business insights.
- Gained proficiency in prompt engineering and Generative AI fundamentals—core requirements for the trainer role.

Computer Operator — **MICAD Division Rewari** Mar 2022–Mar 2023

- Managed data entry, documentation, and report preparation using MS Office (Word, Excel).
- Handled internal email coordination and file management, building strong communication and organisational skills.

Projects & Practical Work

Student Performance Prediction (ML) *Machine Learning*
Built a predictive model using Linear Regression and Random Forest to forecast student outcomes based on study time, attendance, and socio-economic factors. Evaluated with accuracy metrics. *(Directly applicable to learner progress assessment.)*

IMDb Sentiment Analysis (NLP)  *Kaggle*
Developed an NLP pipeline using tokenisation, stopword removal, and TF-IDF vectorisation to classify social media sentiment. Trained and evaluated classification models with a confusion matrix.

Handwritten Digit Recognition (CNN / Deep Learning)
Built a CNN model on the MNIST dataset using TensorFlow/Keras. Implemented training, validation, and performance tuning, achieving high classification accuracy.

Interactive Sales Dashboard (Power BI)

Designed a Power BI dashboard visualising sales performance, profit trends, and regional KPIs (revenue, growth rate). Applied DAX measures, data cleaning, and dynamic slicers.

E-Commerce Sales Analysis (SQL)

Designed and queried a relational database using complex SQL (JOINS, GROUP BY, subqueries, window functions) to surface top-selling products and revenue trends.

Admission System (Python, SQL, HTML, CSS)

Developed a full-stack student registration and data management system with a user-friendly web interface.

Skills

AI & Machine Learning	Machine Learning		Deep Learning		NLP	Computer Vision	
	Generative AI		Prompt Engineering				
Programming	Python	SQL	Java	JavaScript	HTML/CSS		
Tools & Platforms	Power BI	MS 365 Suite		TensorFlow/Keras		Streamlit	GitHub
	Kaggle						
Soft Skills	Training & Facilitation			Communication		Problem Solving	
	Adaptability	Time Management		Teamwork			

Certifications

- AI Fluency — Microsoft (2026)
 - Career Essentials in Generative AI — Microsoft & LinkedIn (2025)
 - Career Essentials in Cybersecurity — Microsoft &
- LinkedIn (2025)
 - Collaborating with Microsoft Teams — Microsoft (2026)
 - Computer Software Application — NSTI (2025)
